

MAX Induction Griddle SMG251-6

Remove your MAX Induction Griddle from the packaging and inspect all parts. If any part or accessories is cracked or damaged, do not install the griddle. Contact your supplier for a replacement griddle.

This Griddle is to be mounted on the Spring USA Induction range SM-251-2CR or SM-253-2CR. Put the Griddle on top of the induction range as shown in picture below. Make sure the griddle is horizontal without any tilting.

Only works with
SM-251-2CR & SM-253-2CR

Operate your induction range
in 'Temp' settings only

Preheat the griddle 30 minutes prior to use

Model	Voltage	Phase	Hertz	Watts	Amps	Plug
