

Rockwood Induction Buffet Chafer

The Rockwood induction buffet server offers versatility and style that fits any event, buffet, or dining establishment. Reminiscent of Eastern style buffet servers, the Rockwood buffet chafer features an alluring titanium matte finish, hydro-dipped woodgrain accents, stainless steel insert and a rounded design.

Highlights:

- Compatible with Spring USA Induction and canned fuel
- All chafers come with a dishwasher safe stainless steel insert
- Food-safe, non-porous, and easy to clean
- Hydro-dip woodgrain coated handles
- Lift-off, stainless steel titanium finish lid
- Hand wash only
- Chafer can withstand temperatures up to 150° F (65° C)

Lifetime Warranty:

Spring USA chafing dishes carry a lifetime warranty covering welds, non-maintenance items, or manufacturer defects. Warranty does not cover coating, abuse or normal wear and tear.

FEATURES |

Flexible Heating Solutions

The Rockwood Induction Buffet Servers can be used with either the Spring USA induction or canned fuel. To convert the Rockwood Induction Buffet Server for use with canned fuel, pair it with the Rockwood titanium stand and fuel holder.

Earthy Elegance

The hydro-dip woodgrain finish on the legs and handles offers a non-porous, food-safe solution that mimics the look of real wood. This not only ensures durability and ease of cleaning but also imparts an earthy feel, blending seamlessly into natural and rustic settings.

Titanium Resilience

The titanium black powder finish minimizes fingerprints while adding an extra layer of protection to the chafer's water-resistant design. With the additional protection provided by the finish, the Rockwood Induction Buffet Server can withstand everyday wear and tear.
